

PUBLIC NOTICE

LYNCHBURG REGIONAL AIRPORT FULL-SCALE EMERGENCY EXERCISE

DATE: Saturday, April 24, 2021

TIME: 9 a.m.

LOCATION: Lynchburg Regional Airport

PURPOSE: We are conducting a full-scale emergency preparedness exercise, known as the triennial, which is required by the FAA. Commercial airports, such as LYH, must hold such an exercise every three years to maintain their Part 139 Airport Certification which allows commercial flights to operate out of the airport.

During this exercise, you can expect to see emergency personnel and vehicles onsite. There may also be smoke, and a possibility of loud noises. Please don't be alarmed as this is all part of the triennial exercise.
